<b>Wind Test Assessment</b>	All of our tents are rated to withstand winds up to 25 mph. We recommend that ground stakes with rope and (2) steel or (1) water ballast per leg be used.							

*Disclaimer: Wind rating conducted in a controlled environment. Outdoor products should be taken down if the likelihood of bad weather is possible. Wind gusts and heavy rain could reduce the wind resistance of these products.*

## SHOWSTOPPER EVENT TENT CANOPIES

### Why should you choose our canopies over the competition's?

Our 400 denier polyester canopies are far more durable than the competitor's 250 denier. Not only are our canopies durable, they are also flame retardant for added safety. The 50+ UV protection and weather-resistant canopy is a perfect solution for sheltering against the sun and rain.

### AVAILABLE WITH THREE IMPRINT OPTIONS:

#### Unimprinted (Blank Canopy)

10' x 10' canopies available in 8 colors\*  
6' x 6' & 8' x 8' canopies available in 4 colors

#### Full-Color Thermal Imprint

Full-color thermal graphics are adhered onto the surface of the stock canopy colors.

#### Full Bleed Dye Sublimation

White canopy is dyed with full-color graphics that become part of the fibers.

\*Does not include Vented Canopies or the Archway Tent
