Original HP Large Format Printing Materials

Sign and display applications

Why buy HP Sign and Display Printing Materials?

The HP large format printing system—the complete solution

HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, consistency, performance, durability, and value—with every print.

For detailed information on the HP large format printing materials portfolio and to order, visit globalBMG.com/hp

Original HP inks and HP printing materials—system chemistry

Original HP inks and printing materials are designed together to provide image quality, durability, and consistency you can rely on. Reliable results enable increased productivity and reduced costs.

Original HP inks are more than just ink and HP large format printing materials are far more than just paper. It's the chemical makeup of each, together with the carefully engineered interaction between the two, that make exceptional results possible. Image quality and consistency so predictable, it's almost cliché. Print permanence that's measured in generations, not months or years. Breakthrough innovations that give you real alternatives to traditional materials that, by nature, must trade-off quality, durability, even environmental considerations. The unique chemistry between HP inks and HP large format printing materials changes all that—among the broad array of materials offered in the HP large format printing materials portfolio, you can have it all.

Original HP inks and printheads

Original HP printing supplies feature intelligent technology built into the ink cartridges, printheads, and the printer. These critical system components communicate interactively to provide automatic and continuous adjustments that optimize print quality and maximize printhead life. User-replaceable printheads enable easy, low-maintenance printing and can eliminate the downtime and expense of a service call.

Designed with the environment in mind

Many HP sign and display printing materials are recyclable through commonly available recycling programs. And in some cases, HP offers the free, convenient HP Large Format Media take-back program.¹ And the HP Planet Partners program provides easy, convenient return and recycling of many Original HP large format ink cartridges and printheads.²

The ColorPRO difference

Printing materials with ColorPRO Technology perform to a strict set of specifications to meet industry-leading performance standards. The specific technology behind media with ColorPRO Technology varies from product to product, however all products with ColorPRO Technology utilize advanced technologies which have been designed together with Original HP inks and HP printers to deliver color excellence in digital printing.

¹ HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See globalBMG.com/hp/ecosolutions for details.

² Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, and for other consumables not included in the program, consult the Material Safety Data Sheet (MSDS) available at hp.com/go/ecodata to determine appropriate disposal.

HP Sign and Display Printing Materials

For HP large format printers

Compatibility and availability information

The mark of responsible forestry

Unprinted HP Heavy Textile Banner and HP Light Fabric are Oeko-Tex® certified according to Oeko-Tex® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production.

FSC®-certified HP printing materials carry the Forest Stewardship Council® (FSC) Mix label, signifying that these media support the development of responsible forest management worldwide. The wood comes from FSC®-certified well managed forests, company controlled sources, and/or recycled material.

Note: Not all FSC®-certified products are available in all regions.

Odorless indoor wall decorations printed on HP PVC-free Wall Paper with HP Latex Inks are GREENGUARD GOLD Certified.

Keep printing materials out of landfill with HP recyclable media eligible for free return and recycling through the HP Large Format Media take-back program.

60 Compatible only with the 60-inch (1524-mm) version of the HP Designjet L25500 Printer series.

- ³ Requires roll-to-roll upgrade kit.
- ⁴ Requires 3-in core adaptor.
- ⁵ Unprinted HP Heavy Textile Banner and HP Light Textile Display Banner are Oeko-Tex® certified according to Oeko-Tex® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production. Tested for emissions of volatile organic compounds and chemical residues such as pesticides, allergy-inducing dyestuffs, or tin-organic compounds.
- ⁶ Purchase of a take-up reel required for compatibility with the HP Latex 210 Printer.
- ⁷ Compatible with the HP Latex 360 Printer only.
- ⁸ To print on porous textiles, it is necessary to use the ink collector (CZ065A) for the HP Latex 3000 Printer.
- ⁹ BMG trademark license code FSC®-C115319, see fsc.org. HP trademark license code FSC®-C017543, see fsc.org. BMG trademark license code PEFC™/29-31-261, see pefc.org. HP trademark license code PEFC™/29-31-198, see pefc.org. Not all FSC®- or PEFC™-certified products are available in all regions. For information about HP large format printing materials, please visit globalBMG.com/hp.
- ¹⁰ HP PVC-free Wall Paper printed with HP Latex Inks is GREENGUARD GOLD Certified. GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg or greenguard.org.
- ¹¹ Can be recycled through commonly available recycling programs.

The mark of responsible forestry

Note: Not all FSC®-certified products are available in all regions.

Original HP large format printing materials

From trade show signage, exhibition graphics, point-of-purchase displays, and wall murals inside to banners, light boxes, event banners, and vehicle graphics outside, choose from a wide range of HP printing materials—designed together with Original HP inks to deliver high-quality, durable output.

Win the business of customers who are going green

The HP large format printing materials portfolio includes a wide variety of recyclable substrates¹² and a range of alternatives to PVC. HP recyclable media can be returned through the HP Large Format Media take-back program available in North America and Europe.¹²

The HP Large Format Media take-back program—available in North America and Europe¹²

For over 15 years, HP has made it easy to recycle HP ink cartridges, printers, and other technology products. As part of the HP Planet Partners program, this free and convenient return and recycling program makes it easy for you and your customers to return recyclable HP media.¹² Simply pack up eligible printing materials. HP picks up the shipping expense and handles sorting and recycling.

This free recycling service is open to customers in North America and Europe.¹²

The program allows you to return and recycle any of the following HP large format printing materials:

- HP HDPE Reinforced Banner
- HP Everyday Matte Polypropylene, 3-in Core
- HP Backlit Polyester Film
- HP Heavy Textile Banner
- HP DuPont™ Tyvek® Banner

The following HP large format printing materials can be recycled through commonly available recycling programs:

- HP Photo-realistic Poster Paper
- HP White Satin Poster Paper
- HP Coated Paper, 3-in Core
- HP Universal Coated Paper, 3-in Core
- HP Universal Heavyweight Coated Paper, 3-in Core
- HP Heavyweight Coated Paper, 3-in Core
- HP Super Heavyweight Plus Matte Paper, 3-in Core

To learn how to participate, see globalBMG.com/hp/ecosolutions.

Offer reassurance for indoor prints with HP printing materials that are approved according to health-related environmental criteria

Do your customers expect evidence that your solution really does reduce the impact of printing on the environment? When you use approved HP solutions—including HP Latex Inks and HP large format printing materials—you can provide reassurance. With the Oeko-Tex® label, HP Heavy Textile Banner and HP Light Textile Display Banner, for indoor display, offer reassurance that emissions levels and chemical residues meet the criteria for Oeko-Tex® labeled products—products tested and certified from a human health perspective.¹³ In addition, HP Latex Ink prints are GREENGUARD GOLD Certified¹⁴ on FSC®-certified¹⁵ HP PVC-free Wall Paper and can help building owners obtain LEED credits.¹⁶ Prints also meet AgBB criteria.¹⁷

¹² HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See globalBMG.com/hp/ecosolutions for details.

¹³ Unprinted HP Heavy Textile Banner and HP Light Textile Display Banner are Oeko-Tex® certified according to Oeko-Tex® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production. Tested for emissions of volatile organic compounds and chemical residues such as pesticides, allergy-inducing dyestuffs, or tin-organic compounds.

¹⁴ GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg or greenguard.org.

¹⁵ BMG trademark license code FSC®-C115319, see fsc.org. HP trademark license code FSC®-C017543, see fsc.org. Not all FSC®-certified products are available in all regions.

¹⁶ To obtain US LEED credits based on FSC® certification, the builder must purchase HP PVC-free Wall Paper printed with HP Latex Inks from an FSC® Chain of Custody certified print service provider. To obtain LEED credits based on GREENGUARD GOLD Certification, HP PVC-free Wall Paper printed with HP Latex Inks must be part of a wall system in which all components are GREENGUARD GOLD Certified.

¹⁷ HP PVC-free Wall Paper printed with HP Latex Inks meets AgBB criteria for health-related evaluation of VOC emissions of indoor building products. See umweltbundesamt.de/en/topics/health/commissions-working-groups/ausschuss-zur-gesundheitlichen-bewertung-von.

Digital fine art

HP Professional Gloss Photo Paper FSC® certified

This outstanding, heavyweight, resin-coated photo paper is ideal for either custom or high-volume photographic printing projects. The bright-white finish provides a high dynamic range and a wide color gamut for color-critical, eye-catching reproductions on a gloss finish.

Weight: **275 g/m²**

Thickness/caliper: **248 microns/9.8 mil**

HP Professional Satin Photo FSC® certified

This outstanding, heavyweight, resin-coated photo paper is ideal for either custom or high-volume photographic printing projects. The bright-white finish provides a high dynamic range and a wide color gamut for color-critical, eye-catching reproductions on a satin finish.

Weight: **275 g/m²**

Thickness/caliper: **248 microns/9.8 mil**

HP Everyday Satin Photo Paper FSC® certified

Produce high quality with this resin-coated paper for high-volume production printing. Ideal for production runs of photo enlargements, posters, and displays and designed for HP Latex printers, this resin-coated photo paper provides an economical price point without sacrificing quality.

Weight: **180 g/m²**

Thickness/caliper: **187 microns/7.4 mil**

HP Premium Satin Canvas

HP Premium Satin Canvas captures the intricate details that reflect the aesthetic intent of the artist. With its larger color gamut, fine art and photographic reproductions are accurate and consistent, to help you gain happy customers and repeat business.

Weight: **381 g/m²**

Thickness/caliper: **462 microns/18.2 mil**

HP Everyday Satin Canvas

Ideal for décor and display work, HP Everyday Satin Canvas produces sharp detail and vivid, accurate color in a slightly-textured, satin, production-oriented canvas.

Weight: **340 g/m²**

Thickness/caliper: **444 microns/17.5 mil**

HP Photo-realistic Poster Paper

HP Photo-realistic Poster Paper is a recyclable,¹⁸ highly versatile media that delivers vibrant, photo-realistic prints for a wide range of indoor graphic applications, such as posters, point-of-purchase displays, and decorations. An affordable alternative to photo media, HP Photo-realistic Poster Paper also offers easy post-print processing to simplify the workflow and maximize productivity.

Weight: **205 g/m²**

Thickness/caliper: **205 microns/8.1 mil**

HP Super Heavyweight Plus Matte Paper, 3-in Core FSC® certified

Produce razor-sharp image quality and ripple-free prints—even under high ink densities—with this best-in-class graphics display paper that includes a barrier layer beneath a thick top coating and an ultra-white matte finish for a rich, distinctive look and feel. This paper helps you achieve a new level of productivity by delivering broad application versatility, instant dry time, and excellent film laminate compatibility. And this paper can be recycled through commonly available recycling programs.

Weight: **210 g/m²**

Thickness/caliper: **259 microns/10.2 mil**

HP White Satin Poster Paper FSC® certified

This multilayer recyclable¹⁹ poster paper with a bright white satin finish produces richly detailed posters and water-resistant²⁰ prints and is qualified for billboard applications. Scratch-resistant prints keep the image intact when folding and achieve up to 6 months display permanence outdoors, unlaminate.²¹

Weight: **136 g/m²**

Thickness/caliper: **165 microns/6.5 mil**

HP Photo-realistic Poster Paper

HP Photo-realistic Poster Paper is a recyclable,¹⁹ highly versatile media that delivers vibrant, photo-realistic prints for a wide range of indoor graphic applications, such as posters, point-of-purchase displays, and decorations. An affordable alternative to photo media, HP Photo-realistic Poster Paper also offers easy post-print processing to simplify the workflow and maximize productivity.

Weight: **205 g/m²**

Thickness/caliper: **205 microns/8.1 mil**

HP Backlit Polyester Film

Create high-impact backlits with the sharp, vibrant color that commands attention. With a specially engineered porous coating, the recyclable,²² polyester backlit film achieves superb ink adhesion to produce razor-sharp images. And this high-performance film helps you keep peak productivity. With a high-end polyester base and compatibility with HP Latex Inks, this film provides a sturdy construction and quick-dry performance to help you move quickly to lamination and display.

Weight: **285 g/m²**

Thickness/caliper: **220 microns/8.7 mil**

HP Everyday Adhesive Matte Polypropylene, 3-in Core

Meet your day-to-day production needs with this versatile, easy-to-use self-adhesive printing material. Produce outstanding image quality and vibrant color. Instant-dry prints help keep your workflow moving smoothly.

Weight:

With liner: **168 g/m²**

Without liner: **120 g/m²**

Thickness/caliper:

With liner: **215 microns/8.5 mil**

Without liner: **180 microns/7.1 mil**

HP Coated Paper, 3-in Core PEFC™ certified

Ideal for color-accurate everyday prints, working comps, and design proofs, this premium bright white paper offers excellent handleability enabling technical professionals to roll or stack time-sensitive documents as soon as they come off the printer. This paper can be recycled through commonly available recycling programs.

Weight: **90 g/m² (24 lb)**

Thickness/caliper: **114 microns/4.5 mil**

¹⁹ Can be recycled through commonly available recycling programs.

²⁰ With HP Latex Inks. Water resistance testing by HP Image Permanence Lab on a wide range of media, including HP media; water resistance is comparable to eco- and low-solvent inks when printed on water-resistant substrates. Water resistance testing follows ISO 18935 method. Results may vary based on specific media performance. For more information, see globalBMG.com/hp/printpermanence.

²¹ With HP Latex Inks. HP image permanence and scratch, smudge, and water resistance estimates by HP Image Permanence Lab on a range of media including HP printing materials. For more information, see globalBMG.com/hp/printpermanence.

²² HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See globalBMG.com/hp/ecosolutions for details.

Outdoor event banners

HP Durable Frontlit Scrim Banner

HP Durable Frontlit Scrim Banner is a 535 g/m² (16-ounce) PVC scrim banner that provides vivid color and high image definition for maximum impact. This exceptionally versatile media is ideal for long-lasting outdoor or indoor applications such as in-store displays, trade show and event displays, outdoor signage, and building murals.

Weight: **535 g/m² (16 oz)**

Thickness/caliper: **449 microns/17.7 mil**

HP HDPE Reinforced Banner NEW

Deliver sharp detail and vivid, lasting colors with ColorPRO Technology. This tough, lightweight HP banner helps reduce the impact of printing on the environment. This lightweight 180 g/m² (5-ounce) material offers the strength of 440 g/m² (13-ounce) PVC scrim. With this combination, you can produce signage suited to the rough-and-ready demands of banner displays, and at the same time you can lower your transportation costs, and reduce your raw material consumption. Recyclable through the HP Large Format Media take-back program,³² and designed together with HP Latex Inks, this material helps you—and your customers—go green.

Weight: **180 g/m² (5 oz)**

Thickness/caliper: **203 microns/8 mil**

HP DuPont™ Tyvek® Banner

HP DuPont™ Tyvek® Banner is a highly versatile, lightweight, recyclable³² media that delivers brilliant, high-quality banners for indoor applications with over 1 year unlaminate, in-window display permanence.³⁴ An economical alternative to widely available scrim banners, this durable HDPE banner is easy to hang and grommet, taking the hassle out of installation.

Weight: **135 g/m² (4 oz)**

Thickness/caliper: **304 microns/12 mil**

Application needs:	Vibrant color/ fine detail	Durable	Water resistant	Stitch/ grommet	Weld

³⁷ HP PVC-free Wall Paper printed with HP Latex Inks is GREENGUARD GOLD Certified. GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg or greenguard.org.

³⁸ Chemical analysis demonstrated elemental chlorine to be below 200 ppm. Presence of chlorine is attributed to residual chlorine used in the paper-making process, and not due to the presence of PVC.

³⁹ Class A, B1, EN 13501, and M1 approved fire certifications.

⁴⁰ According to the European Standard EN15102.

⁴¹ With HP Latex Inks. Display permanence rating for interior displays/away from direct sunlight by HP Image Permanence Lab. For more information, see globalBMG.com/hp/printpermanence.

⁴² HP PVC-free Wall Paper can be easily removed from the wall. Residual adhesive can be easily wiped clean with water and a sponge. Some warranty limitations apply. See the HP PVC-free Wall Paper Warranty at globalBMG.com/hp/mediawarranties.

⁴³ To obtain US LEED credits based on FSC® certification, the builder must purchase HP PVC-free Wall Paper printed with HP Latex Inks from an FSC® Chain of Custody certified print service provider. To obtain LEED credits based on GREENGUARD GOLD Certification, HP PVC-free Wall Paper printed with HP Latex Inks must be part of a wall system in which all components are GREENGUARD GOLD Certified.

⁴⁴ HP PVC-free Wall Paper printed with HP Latex Inks meets AgBB criteria for health-related evaluation of VOC emissions of indoor building products. See umweltbundesamt.de/en/topics/health/commissions-working-groups/ausschuss-zur-gesundheitlichen-bewertung-von.

⁴⁵ HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See globalBMG.com/hp/ecosolutions for details.

⁴⁶ Not recommended for installations in weather conditions with extreme cold or wind. Not intended for flags. Use of two-sided pressure-sensitive banner tape and banner stitching, in combination with grommets suitable for outdoor conditions, is recommended for finishing of all sides. Always use two poles.

⁶⁸ HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See globalBMG.com/hp/ecosolutions for details.

⁶⁹ Not recommended for installations in weather conditions with extreme cold or wind. Not intended for flags. Use of two-sided pressure-sensitive banner tape and banner stitching, in combination with grommets suitable for outdoor conditions, is recommended for finishing of all sides. Always use two poles.

⁷⁰ HP HDPE Reinforced Banner can only be welded with heat, print-to-print and back-to-back.

Billboards

Paper

HP Blue Back Billboard Paper

HP Blue Back Billboard Paper is specifically designed as an affordable media for outdoor billboards, posters, and kiosks. The satin coating produces long-lasting, brilliant, high-quality prints that do not require finishing for outdoor applications. This material requires no lamination, performs extremely well through all print finishing steps, and facilitates efficient, reliable mounting.

Weight: **123 g/m²**

Thickness/caliper: **165 microns/6.5 mil**

HP White Satin Poster Paper FSC® certified

This multilayer recyclable⁷¹ poster paper with a bright white satin finish produces richly detailed posters and water-resistant⁷² prints and is qualified for billboard applications. Scratch-resistant prints keep the image intact when folding and achieve up to 6 months display permanence outdoors, unlaminated.⁷³

⁷¹ Can be recycled through commonly available recycling programs.

⁷² With HP Latex Inks. Water resistance testing by HP Image Permanence Lab on a wide range of media, including HP media; water resistance is comparable to eco- and low-solvent inks when printed on water-resistant substrates. Water resistance testing follows ISO 18935 method. Results may vary based on specific media performance. For more information, see globalBMG.com/hp/printpermanence.

⁷³ With HP Latex Inks. HP image permanence and scratch, smudge, and water resistance estimates by HP Image Permanence Lab on a range of media including HP printing materials. See globalBMG.com/hp/printpermanence.

Vehicle graphics

Wraps

HP Air Release Adhesive Gloss Cast Vinyl

This competitively priced, high-performance white cast vinyl with a permanent adhesive is ideal for high-impact long-term applications on curved and flat surfaces, like vehicle wraps. This substrate offers a gloss finish and an opaque permanent adhesive.
