OCÉ 5C1SG

5 Mil Semi-gloss C1 Paper Display Media

Product Description

A 5 mil semi-gloss C1 paper with exceptional color gamut. The Océ 5C1SG media is perfect for short term poster runs to compete with the "offset" look for the output. It allows you to print short or long runs on your Océ ColorWave 500/650/700 or 900 printer at a competitive price. The print quality competes with a full color spectrum you would see from more expensive coated photo papers.

SPECIFICATIONS
Physical properties*
- Basis Weight - 5 mil /125 gsm
- Caliper - 5 mil
- Opacity - >88%
- Whiteness - 130 CIE
- Lab = a* 0.0. b*0.8

*Target Values

Printer/Ink Compatibility
Océ 5C1SG is recommended for use with Océ ColorWave 500/600/650/700 printers. It is recommended that you use the proper profile when loading media.

Application Instructions
Please refer to finishing section below.

Finishing Recommendations
Océ 5C1SG can be laminated with pressure sensitive laminates when printed with the Océ ColorWave 500/650/700 printers. You can use thermal laminates with the Océ ColorWave 900 printer and other aqueous inkjet technology.

This information is presented as a general guide and is not a performance guarantee.

The user should independently determine prior to use the suitability of the material for the specific purpose.

Color Profiles
Océ 5C1SG is recommend for use with Océ ColorWave 650/500/700/900 printers. For the Océ ColorWave 500/700 you can use the Océ 5C1SG OMP profile available for download. Océ ColorWave 650 users would use the Océ PHPR7 OMP profile. Océ ColorWave 900 users would choose the 5C1SG profile.
