- Allow material to stabilize to room conditions 24 hours before use.

Environmental, Health & Safety

- No Material Safety Data Sheet required.
- Waste not suited for recycling.

Main Applications

- Indoor banners
- Retail signage

Printer/Ink Compatibility

Océ OPVYNLPS is recommended for use with dye and pigment inks in most of today's inkjet printers. It is also compatible with Latex. For a complete compatibility chart on our website go to: www.csa.canon.com

Print Longevity

- Outdoor life expectancy without noticeable fading - 4 months
 - Indoor life expectancy without noticeable fading - 6 months
- *Based on accelerated age testing. Actual results may vary based on use.

Software Settings

To optimize print quality, printers should be set for the highest print quality and media selection should be "heavy coated". Ink coverage up to 350% is recommended.

Finishing Recommendations

Océ OPVYNLPS can be overlaminated with both thermal (max. 185°F.) and pressure sensitive laminates, for additional scratch resistance and moisture protection when needed. Make sure that prints are completely dry prior to laminating.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for its intended application.
