

DecorFlex Suede is a 16 oz. PVC polyester fabric with a suede finish. DecorFlex Suede is ideal for any application that requires softness and elasticity while producing vibrant colors. The material can be used to create personalized upholstered furniture, indoor decorations, corporate lobbies seating, and exhibition graphics. The material also contains UV inhibitors making it suitable for short term outdoor applications and contains a biocide treatment making it resistant to fungus and bacteria. DecorFlex Suede can help transform a space and provides unique opportunities for branding and design. The material can be printed using solvent, eco-solvent, UV & Latex inks. DecorFlex Suede is available in 55" widths.
