Pressure-Sensitive Adhesive Films & Specialty Media

# AveryGraphics

Leading the industry in pressure-sensitive adhesive materials, Avery Graphics and Reflective Products Division manufactures a broad range of products for all signage applications.

A division of Avery Dennison Corporation - a FORTUNE 500 Company, Avery Graphics delivers high quality graphics' media to the signage industry via a variety of materials engineered for digital printing, computer cut signage, screen-printing and reflective signage.

Providing solutions for critical branding and signage investments, Avery Graphics films can be used in countless applications ranging from promotional graphics such as signage, banners, labels, exhibits, displays and bus-wrap markings to long-term, durable applications such as fleet markings, backlit signs, vehicle striping and many other graphics.

Together with Avery Graphics your business will remain at the forefront of the industry with access to the very best product for all your graphics needs.

# Beimaginative

## Keeping at the forefront of digital inkjet printing is easy with Avery Graphics.

Constantly evolving, digital inkjet printing is the fastest growing segment within the signage industry. As a market leader in pressure-sensitive adhesive films, Avery Graphics is your personal digital inkjet printing expert.

From short term promotional graphics to the most demanding outdoor signs, our comprehensive portfolio of digital inkjet print media means we have a product to suit all applications. You can select with confidence and assurance that our digital print media is of the highest quality at a price that suits your budget.

By linking with Avery Graphics your business is instantly taken to another level where you will be given access to the latest digital inkjet print media designed for different printing technologies or applications. Plus as an Avery partner, you will also enjoy many added services and programs including technical support from people who know digital printing from the ground up.

## Solvent, Eco-Solvent and UV Curable Digital Inkjet Printing Media

### MPI Media – Multi Purpose Inkjet

Our MPI range has been developed closely with today's leading manufactures of solvent, eco solvent and UV curable digital inkjet printers. The result is an extensive range of MPI media that delivers crisp, high quality digital print images for the smallest decal, vehicle graphics, billboards or the largest building wrap.

## Digital Inkjet Print Overlaminates

### DOL Films

We recommend to protect your valuable digitally printed graphics with a clear laminating film. Avery digital inkjet print overlaminates will keep digital colours razor sharp while protecting the graphics from abrasion, moisture, UV light, heat, dirt and even graffiti. The permanent adhesive ensures compatibility with solvent, eco-solvent and UV curable inks, and guarantees clarity, enhancing the image's look and feel.

### Step 1

Choose a MPI (Multi-Purpose Inkjet) product from Avery's extensive portfolio that suits your application.

### Step 2

Print Avery's MPI media on a Solvent, Eco-Solvent or UV Curable printer.

### Step 3

Overlamine your graphics with Avery's DOL film (Digital Overlaminates) - specially engineered to be compatible with Avery's MPI range. Choosing the right digital overlaminate is now even easier. Be sure to pair the right DOL with Avery MPI Digital media.

**Inspiring Colours**

# Beunforgettable

With a rainbow of colours designed for a variety of applications, Avery's range of pressure-sensitive cast, calendered, polyester and reflective films provide optimum performance for all your signage needs. Complementing our standard product line is a unique series of Speciality Films designed to bring life to any application.

Our extensive signage portfolio includes a breadth of products to meet the needs of diverse applications and durability requirements.

## Avery Supreme Wrapping Film, 900 Super Cast & 800 Premium Cast

### Cast Opaque Vinyl

When you need exceptional production and application performance, the only choice is Avery's 900 Super Cast and 800 Premium Cast films. Avery cast vinyls are the ideal choice for durable vehicle graphics, architectural signs, directional signs or any application where conformability and durability are essential.

### Supreme Wrapping Film

Designed as a paint replacement vinyl, Avery's Supreme Wrapping Film is a long-life, conformable wrapping film with a wide range of colours, including Pantone® colours. It is the ideal film for easy and fast application.

[www.bclimage.com](http://www.bclimage.com)  
866 971-1008

### 900 Super Cast

Avery 900 Super Cast is a patented cast vinyl guaranteed to give optimal cutting and weeding performance, superior conformability, market leading durability and the most outstanding automotive-like gloss finish imaginable.

### 800 Premium Cast

Avery 800 Premium Cast can be relied upon to provide dependable performance for general signage applications at an attractive price.

### Colours

If colour is what you are after, Avery provides the widest assortment of standard colours with over 160 to choose from across the range of Supreme Wrapping Film, 900 Super Cast and 800 Premium Cast series. When compromising on a colour is not an option, turn to Avery's Pantone® colour matching service and get the exact colour you need.

## Avery 700 Premium Film

### Polymeric Calendered Vinyl

The only intermediate grade vinyl a signmaker needs to stock for everyday signage use is Avery's 700 Premium Film. With a soft polymeric calendered face film and robust outdoor adhesive, 700 Premium Film offers a cutting, weeding and application performance like no other film in its class. With over 120 high gloss colours to choose from, it's little wonder the 700PF is the industry's favourite vinyl.

## Avery 500 Event Film & 450 General Signage Film

### Monomeric Calendered Vinyl

#### 500 Event Film

For your short term signs choose Avery's reliable monomeric calendered 500 Event Film. With 50 standard colours in both low glare matte and brilliant high gloss finishes, 500EF is ideal for indoor and outdoor graphics, POP exhibition, event and promotional applications.

#### 450 General Signage Film

Avery's 450 Series is ideal for exhibitions and short-term promotional work. Value for money is coupled with a vibrant, concise palette of colours. The series offers an assortment of 22 standard gloss colours, as well as 22 standard matte colours suitable for opaque applications. The series also includes two metallics – gold and silver.

## Avery 5500 Translucent Series

### Cast Translucent Vinyl

Brighten your world during the day and night with Avery 5500 Translucent Series. Designed to provide brilliant illumination and outdoor durability, you can be sure to stand out from the crowd when you choose Avery's 5500 Translucent films. In addition to an amazing 85 standard colours with Pantone® colour references, expand your colour choice with Avery's Customer Colour Matching service. In conjunction with Avery light diffuser and blackout films, producing light boxes and illuminated signs couldn't be easier.

## Avery Speciality Films

Looking for something unusual? Avery's speciality range of computer cut products is sure to give the impact you are looking for. Add extra flare to your signs by choosing from a wide selection of metallic, fluorescent, carbon fibre, wood grain, holographic, pearlescent or reflective films.

# Beconsistent

## Lasting Impressions

Getting noticed with impressive prints is easy with Avery Graphics Screenprint Films. Our superior range has been specifically developed to suit solvent and UV screen process printing. With the unrivalled quality of our face films, adhesives and liners, you can be assured of excellent sheet stability and layflatness for precise register and perfect printing first time, every time.

For everything from bumper stickers to corporate identity and branding, Avery's Screenprint Films will guarantee the highest quality whether for a single colour or multicolour decal.

## Our Service Promise

We recognise the importance of time to your business, so we have formulated our screenprint service commitment to fit your needs. Many of our most popular products are in fact manufactured locally, giving you the convenience of a speedy turnaround. Local manufacturing coupled with our local custom sheeting and slitting services makes Avery Graphics the ideal business partner.

# Bebrilliant

Enhance night visibility and increase signage impact with Avery's Reflective Product Portfolio.

Bringing together a range of reflective films to suit key commercial graphics, traffic sheeting and safety applications, Avery Graphics offers you the most comprehensive range of reflective products.

## Prismatic Reflective Sheeting

### T-6500, T-7500 & T-9500 Omni

For excellent daytime colour and high visibility, the T-6500, T-7500 & T-9500 Omni Series are the only reflective range in their class. The range eliminates waste, ensuring maximum value.

The T-6500, T-7500 & T-9500 Omni-view™ Series have high conspicuity, high legibility and give drivers a generous lead time to read and react. Perfect for high speed roadways and urban areas where higher ambient light levels can make signs less visible, the choice is easy with Avery's Prismatic Reflective Sheeting.

## High Intensity Reflective Sheeting

### T-5500 Series

When you need high grade reflective sheeting, choose Avery Graphics T-5500 Series. T-5500 is perfect for highway signs requiring high visibility and ideal for all types of traffic signs mounted on rigid substrates. So when it comes to the high visibility and safety that drivers have come to expect, Avery Graphics T-5500 Series has you covered.

## Engineer Grade Reflective Sheeting

### T-1500 Series

For great value in reflective sheeting for use on flat surface traffic and signage applications, use T-1500 Series. The Series is easy to apply and durable.

## Fleet and Commercial Graphics

### 1100 High Visibility Prismatic

Designed for high impact vehicle graphic applications, 911EVG Prismatic Reflective Films are quickly becoming the choice by knowledgeable professionals. 911EVG exhibits stunning night time and sparkling daytime colours that will get your emergency or fleet vehicles noticed. It's unique conformability over simple curves makes converting, application and removal an easy task.

### 1200 High Visibility Reflective

Need bright night visibility? We offer a complete range of reflective films suitable for a variety of printing and die-cutting methods. Available in a choice of face films, adhesives and offering up to 7 years outdoor durability, Avery has a Night Visibility reflective product for every application.

## Transparent Overlay Films

To complete your selection, Avery's Overlays are designed to complement the Avery Graphics reflective sheeting type you are using. If it is excellent transparency or long lasting durability you are after, your solution is Avery Graphics overlay films.

## Conspicuity Tape

For enhanced night time vehicle visibility, choose V-5720 Conspicuity Tape. This high quality, durable, self-adhesive, prismatic lens, retro-reflective material ensures excellent vehicle recognition in the dark.

### Custom Colour Matching

Our premium signage films are additionally available in over 1,000 Pantone® colours through our license agreement with Pantone®. And if none of these give you the right colour to fit your customer's needs we can match any colour you provide using our Avery Graphics Colour Match Service.

## ICS Warranty P r o g r a m

### Commitment to Quality

At Avery Graphics, we offer an innovative range of graphic films that are backed by our comprehensive Integrated Component System (ICS) Warranty, giving you total confidence that our films will perform exactly how they should, from production through application and for the life of the graphic.

The quality and performance of our sign materials, screen print films and digital media is our highest priority. Every product we develop undergoes rigorous scientific tests to meet our stringent durability and performance requirements and complies with globally recognised test methods. It's a dedication to quality that gives our customers total confidence in our films. Our warranty offers you an open system that provides the greatest range of flexibility, choice, confidence and protection. You choose the production method, approved printer, ink and application tape, coupled with our films – and we provide the warranty.

The Avery ICS Performance Guarantee combines our films with approved components to form a system guaranteed to be compatible and provide superior performance. The ICS Performance Guarantee covers production quality, film and adhesive performance and durability across a broad range of applications.
