Privacy – with a flick of a switch

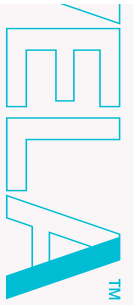

Incorporate privacy on-demand with Avery Dennison's Vela™ – a new simple retrofit solution delivering instantaneous in office privacy with the flick of a switch.

Avery Dennison's Vela™ Dynamic System for privacy places a thin, transparent film over glass panes when switched on and transforms to beautifully frosted when turned off.

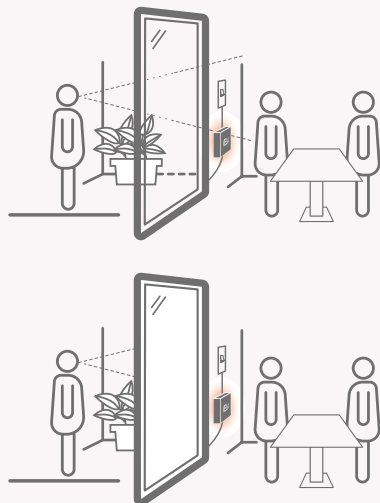

Vela™ enhances the appearance of interior spaces and provides privacy when needed. In its translucent, turned-off state, the Vela™ Dynamic System makes an ideal whiteboard surface that can be easily written on and erased – adding another welcome function to the workspace. Make Vela™ a convenient function in your office by incorporating Vela™ with smart office & home systems using a mobile app or a smart home connector.

The transformation from transparent to translucent occurs instantly. Viewers observing the Vela™ Dynamic System for privacy will be amazed to watch this innovative technology change when switched on or off.

Vela™ allows you to:

- Enjoy flexible use of open-concept space
- Include privacy as an aesthetic component in an interior design
- Enjoy erasable whiteboard functionality
- Impress onlookers with on/off transformation
- Incorporate innovative technology into the work environment
- Connect to smart home apps

Features + Benefits:

- Easy operation
